

REHABDATA Goes Global

Integrating the CIRRIE international research collection into NARIC's REHABDATA database

Jessica Chaiken

National Rehabilitation Information Center (NARIC)

December 13, 2016

(re)Introducing NARIC and REHABDATA

- NARIC is the National Rehabilitation Information Center – funded by NIDILRR – serving as NIDILRR’s library and dissemination center.
- The NARIC collection spans more than 60 years of disability and rehabilitation research all indexed in the REHABDATA database.
- Prior to 2016, REHABDATA included approximately 100,000 citations
 - Articles from peer-reviewed journals, conference proceedings, and major magazines
 - Original research produced by Federal grantees (primarily NIDILRR) including reports, manuals, curricula, white papers, theses, guides, factsheets, newsletters
 - Commercially-published materials including textbooks
- REHABDATA went online in 1996, adding literature alerts in 1998 and full text documents in 2005.

A panoramic view of the bookshelves holding about half of the NARIC collection. The other half is hidden in file cabinets.

Looking Outward – CIRRIE Builds Its Collection

- Beginning in 1999, NIDILRR funded the Center for International Rehabilitation Research Information and Exchange (CIRRIE).
 - Mission to facilitate the sharing of information between rehabilitation researchers in the US and other countries by supporting collaboration among the research community and by gathering and synthesizing the information this community produces.
 - CIRRIE's citation database built on the REHABDATA concept, including the Thesaurus, but with international scope
 - CIRRIE also developed an excellent collection of original material
 - » International Encyclopedia of Rehabilitation
 - » Cultural competency guides
 - » Annotated bibliographies
 - All but the database is still available at cirrie.buffalo.edu

Expanding REHABDATA's Scope

- **NARIC's task for 2016: Adopt the CIRRIE citation database**
 - Step 1: Host the complete database at naric.com while the integration took place.
 - Step 2: To import or not to import?
 - Step 3: (re)Build the search functionality
 - Step 4: (re)Create the reports
 - Step 5: (re)Introduce new material

Basic and Advanced Search

- Multiple ways to search REHABDATA
 - Basic search at naric.com
 - » All-fields, all-the-words (AND) search
 - » Searching *spinal cord injury walking* returns any records with those four words anywhere in the record (as a phrase or individually)
 - » Your results will include every type of document, including international research

What can we help you find today?

I'm searching for

- Journal articles, books, and reports from the NARIC library (including international research).
- Projects conducting research and/or development.
- Organizations, agencies, and online resources that support people with disabilities.
- A NARIC Publication (including News and Notes)

Your Search Results

Total Found for *spinal cord injury walking* : 321.

Pages: 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 Next

1 of 321.
Locomotor training in the pediatric spinal cord injury population: A systematic review of the literature.
Gorski, Katelin; Harbold, Kelsey; Haverstick, Katelyn; Schultz, Emily; Shealy, Stephanie E.; Krisa, Laura.
2016
J73990.

2 of 321.
Effects of virtual walking treatment on spinal cord injury-related neuropathic pain: Pilot results and trends related to location of pain and at-level neuronal hypersensitivity.
Jordan, Melissa; Richardson, Elizabeth J..
2016
J74039.

3 of 321.
Accelerometry-enabled measurement of walking performance with a robotic exoskeleton: A pilot study.
Lonini, Luca; Shawen, Nicholas; Scanlan, Kathleen; Rymer, William Z.; Kording, Konrad P.; Jayaraman, Arun.
2016
J73314.

4 of 321.
Spinal rhythm generation by step-induced feedback and transcutaneous posterior root stimulation in complete spinal cord-injured individuals.
Minassian, Karen; Hofstoetter, Ursula S.; Danner, Simon M.; Mayr, Winfried; Bruce, Joy A.; McKay, W. Barry; Tansley, Keith E..
2016
J73503.

5 of 321.
Does early exercise attenuate muscle atrophy or bone loss after spinal cord injury?
Panisset, M. G.; Galea, M. P.; El-Ansary, D..
2016
J73575.

6 of 321.
Comparison of soleus H-reflexes in two groups of individuals with motor incomplete spinal cord

7 of 578.

Does early exercise attenuate muscle atrophy or bone loss after spinal cord injury?.

Browse your way through

- **Not sure where to start? Try browsing by**
 - **Thesaurus term** – Every record in REHABDATA is indexed by a select group of keywords
 - » Familiar with ICF terminology? Match ICF terms to Thesaurus terms to start your search
 - **New acquisitions**
 - » About 300 items are added each month (50-80 international pieces). Browse by curated descriptor groups to get an overview of what we recently added.
 - **Journals**
 - » Great way to get to know where the field is publishing and to find new international and open access journals
 - **Publishers**
 - » A smaller list, but highlights the biggest publishers in disability and rehabilitation

Looking forward

- **NARIC will continue to grow the International Research collection, but with some important differences:**
 - Fewer new acquisitions, hand selected by NARIC librarians
 - Original abstracts
 - Focus on non-English publishers
- **More International English articles as well**
 - Our acquisition efforts tended to focus on US research. New English-language acquisitions will also broaden in scope.
- **New printed Thesaurus for 2017**

Stay Up-to-Date

- **Sign up for REHABDATA Connection**
 - Monthly literature awareness service
 - One email, multiple topics, you choose what's important to you
- **Sign up for News and Notes**
